

Title of Assessment: Student Leader Training Feedback 2010

Dates of Assessment: 10/15/10-11/30/10

Summary of Key Findings:

- Programming sessions did not prepare student staff to feel comfortable putting on a program.
- After Gatekeeper training and Sexual Assault training are two difficult topics to have in one day.
- Student Leaders enjoy retreats, but requested either more advance ropes course or no ropes course at all.

Actions Taken:

- Multiple changes were made to the Programming Model last year and feedback was collected throughout this year to make final adjustments in order for the procedure to be more comprehensive and supportive.
- This year's schedule reflects the request to separate emotionally draining topics to the best of our ability.
