

Study Abroad Focus Group Questions

We are conducting focus groups to better understand student's interest and awareness of study abroad and international internships. We are meeting with different student constituencies to better understand their perceptions. No individually identifying information will be used. We will be analyzing the data for themes.

1. What are your perceptions about who goes on Study Abroad?
2. Do you see any benefits to studying abroad?
3. If you had the opportunity to learn abroad, how long would you be able to go?
4. What are the barriers/constraints that makes going abroad difficult for students?
5. What would allow more students to go abroad?
