

2010 Parent & Family Spring Event

Population for survey: Parents/Family Members of current students who attended the Parent & Family Spring Event, February 27-28, 2010

Response rate: 5 responded of 13 families e-mailed

Summary of Key Findings:

Participants were generally well satisfied with all aspects of the weekend, including the variety of events offered, ease of registration, and meeting other attendees. The most common ways attendees found out about the event were through the Parent & Family Newsletter, a direct email from Parent Resources, and through attendance at previous parent and family events.

Actions Taken:

Events and methods that were successful will be repeated and suggestions, such as making attendees aware of other university events taking place that weekend, will be incorporated into future parent and family events.
