

## **Attended Orientation – Not Enrolled FA09**

### **Summary of Key Findings:**

- 377 students (first year and transfer) who attended Orientation but did not enroll in Fall 2009 classes were contacted to find trends for not enrolling. 190 responded.
- Most common reasons were financial, deferring enrollment, and attending a different institution.

### **Actions Taken:**

- Findings were consistent with previous results so no changes were reported to campus constituents.
