

WRC Scholarship Orientation 2012

Summary of Key Findings:

The scholarship orientation continues to be an important part of the WRC Scholarship Program. Students find time with other non-traditional students, information about campus resources & the student panel to be the most helpful aspect of the orientation. Some changes that are worth discussing: providing additional time for students to get to know each other (ie introductions, ice breakers), offering two orientations at different times so that individuals do not have to take off work, adding a speaker/resource about graduation for scholars.

Response Rate: 64.9% (37 of 57)

Administration Type: Campus Labs mailing

Actions Taken:

Will review recommendations with director & AD to make suggestions/changes before the next orientation.

Which department and/or program goals does this program / project align with?

This aligns with assessing WRC programs & projects

Which Student Affairs goals (<http://studentaffairs.utah.edu/assessment/documents/strategic-plans/strategic-plan-brochure.pdf>) does this program / project align with?

This aligns with goal #6
